## **FOR IMMEDIATE RELEASE**

### **Weatherlow Signal Replacement Project**

Susanville – The California Department of Transportation (Caltrans) has announced the start of a \$240,000 construction project in downtown Susanville at the intersection of State Route 36 and Weatherlow Street. Improvements will include the installation of a storm drain on South Weatherlow Street, replacement of curb ramps, replacement of the traffic signals at the intersection and reconstruction of portions of North and South Weatherlow Street.

Construction work will be conducted by Sierra Nevada Construction, Inc. and will begin May 17, 2004. Completion of the project is anticipated in early July 2004 and is dependent upon delivery of the new traffic light poles.

Normal workdays will be Monday through Thursday, 7 p.m. to 6 a.m. With minor exceptions, all work will be done at night. During construction the traveling public can expect lane closures, traffic control with flaggers on State Route 36, closures with detours on Weatherlow Street and up to 5-minute delays.

For more information contact Dave Greene, Resident Engineer at (530) 257-8120 or Denise Yergenson, Caltrans Public Relations Liaison (530) 229-0511.
